CAREER SUMMARY

Frontend and Mobile Developer with 4+ years of experience in **React Native**, **React.js**, and **Angular**. Skilled in building scalable applications, API integrations, and real-time features. Strong focus on performance optimization, clean architecture, and delivering high-quality user experiences.

CORE SKILLS

Frontend:
React JS, Angular, Next.js
Mobile:
React Native
State Management:
Redux, Redux Thunk, NgRx
Programming:
JavaScript, TypeScript
Styling:
HTML, CSS
Tools:
Git, GitHub, Figma, Zeplin
Libraries:
RxJS

PROFESSIONAL EXPERIENCE

REACT NATIVE DEVELOPER
INDIAFILINGS PRIVATE LIMITED – CHENNAI | MAR 2024 – OCT 2025

Project 1: IndiaFilings Mobile App

Tech: React Native, Redux Thunk, REST APIs, Typescript

- Developed scalable UI modules including Service Listing, Authentication, and Ledger features
- Integrated APIs for real-time data handling and improved app performance
- Built workspace features like chat, document upload, and document management

Project 2: Ledgers App

Tech: React Native, TypeScript, REST APIs, Redux Thunk

- Built invoicing and accounting modules including Dashboard, Invoice, and Receivables
- Developed OCR-based feature to extract data from invoices and visiting cards
- Enabled camera-based data entry to reduce manual input effort

FRONTEND DEVELOPER
JETCODE, CUDDALORE | JUL 2021 – FEB 2024

Project 3: Gyrus NEET App & Web Portal

- Developed NEET exam simulation platform with dynamic test modules and real exam patterns
- Built mobile and web applications using React Native and React.js
- Implemented JWT-based authentication and role-based access control (Admin, Manager, Feeder)
- Integrated React Query for efficient data fetching and state management
- Developed notification system for individual, group, and broadcast messaging
- Built custom keyboard for equations and scientific inputs
- Designed features for question management, test creation, and user analytics

Project 4: ACAD – Learning Management System (LMS)

- Developed frontend features for an online learning platform using React.js
- Built UI components to support classroom learning, distance education, and user workflows
- Collaborated with team and handled bug fixing across multiple development stages
- Participated in client discussions and provided regular development updates

Project 5: Webinar Mobile Application

- Developed mobile application for webinar-based user activities using Angular
- Implemented UI components and improved user interaction flows
- Contributed to feature development based on client requirements

EDUCATION

BACHELOR OF ENGINEERING - COMPUTER SCIENCE
KRISHNASAMY COLLEGE OF ENGINEERING & TECHNOLOGY, CUDDALORE | 2017 – 2021
